

CORE DRIVERS

What are they?

Values we follow for their own merit.

If there's no *other* value to your decision than the driver, it may be a core driver.

Example

A friend who wants Prestige may proof-read your first text for hours but still won't recommend it to her friends.

During play

Limitations or difficulty for social skills,

Recover from bad things,

It's easier to act in accordance with core drivers.

Example

Even under a friend spell, people don't act against their core drivers.

One who needs compliance with rules can go through hell to keep an oath.

Party Creation with Core Drivers

For each character place three dice on the fields on the backside. For non-humans use two dice and a note with a self-chosen keyword.
